Synopsis:

The project goal of Advancing Implementation National Boating Education Standards is to reduce recreational boating fatalities and injuries through increasing use and development of American National Standards for recreational boating. The American National Standards for boating knowledge identify content used to 1) inform the boating public about inherent risks associated with boating, 2) persuade the public to adopt safe boating behaviors, and 3) remind the boating public of these behaviors. The most widely implemented standard, the ANSI/NASBLA 103-2016: Basic Boating Knowledge – Power, is in current use by over 100 course providers offering over 400 unique courses.
